## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-7, drawn to a roller with an internal motor, classified in class 198, subclass 835.

II. Claims 8-12, drawn to an adjustable motor mount, classified in class 198, subclass 861.1.

III. Claims 13-20, drawn to guide means for a conveyor belt, classified in class 198, subclass 840.

IV. Claims 21-23, drawn to a non-powered roller conveyor and a belt conveyor, classified in Class 198, subclass 562.

2. The inventions are distinct, each from the other because of the following reasons:

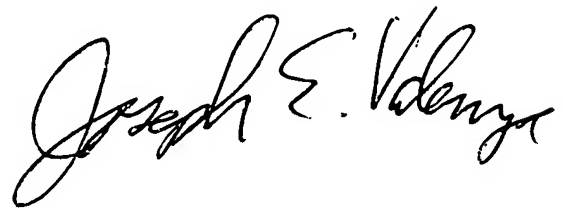

Inventions I-III and IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as utility as a self-powered roller conveyor that does not require the adjustable mount of invention II or the guide means of invention III or the belt and non-powered rollers of invention IV. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 3651

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Any inquiry concerning this communication should be directed to Joseph E. Valenza at telephone number (703) 308-2577. Amendments may be faxed to 703-305-7687. My normal workweek is Monday through Thursday.
